2. Select Remote	Playback	
Select Camera on the right hand s	ide of the screen, at the bot	tom of the <mark>screen d</mark> rag the

timeline back and forth to the desired time.

To save a video click on the start recording Icon at the start of where you want to record and again when the event is over. Files will be saved to C:\Users\Public\Guarding Vision Site\UserData\Video\

# Chapter 7 Dowloading & Setting up Player

#### \* this only has to be done the first time it is setup on the computer

To download the player, first goto www.eyesonic.com, then click support in the top right. Then click on software under the Support option. Click on VSPlayer and wait for download to complete.

Extract the zip file and run the setup program and follow the install steps below

# Setting Player to open file automatically

Right click on the video file after exporting it from guarding vision, goto Open with and choose another app

Select Always use this app to open .mp4 files -> Look for another app on this PC. Then browse to the install folder C:\Program Files (x86)\VSPlayer and click Open.
